

DEMONSTRATED SUCCESS

Improving student learning by helping teachers do what they love

DATA IS ONLY AS GOOD AS THOSE WHO INTERPRET IT

NEWS

The Move Towards Competency Education

Last week, our team was pleased to participate in the 3rd PACE summer Institute held at Concord schools. Over 200 NH educators attended this 4-day event, during which they:

*Conducted consensus scoring of selected student work samples from the PACE Common Tasks.

*Worked in triads to rate a cross section of students' "Body of Work" comprised of selected local assessments throughout the year, that reveal mastery of

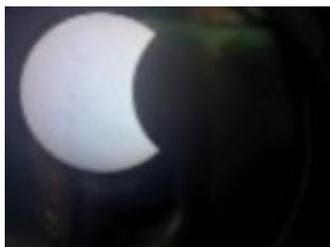

We can help implement effective data practices

In larger, NH districts, establishing consistent K-12 data practices in multiple buildings can be challenging.

Demonstrated Success worked with the Salem School District during 4 half-day sessions to review the district's current data use procedures and evaluate their strengths and weaknesses. Once identified, Demonstrated Success helped establish a districtwide assessment calendar, identify expectations for rigorous analysis of data at the PLC level, articulate reciprocal communication between building leaders & PLC teams, and direct communication from principals to the District Data Team

Summer Fun: Our Demonstrated Success president, Mike Schwartz, drove to TN to support his daughter's love of astronomy. What a sight to see! Thank you, educators, for instilling a love of learning in our children.

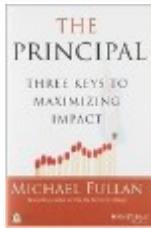

*Collaborated on new tasks for 2018-19.

This process of consensus scoring a sampling of PACE Common Assessments, and rating a sampling of students' "Body of Work" is essential to generate reliable and valid Annual Determinations for students that participate in the PACE initiative and do not take the Smarter Balanced Assessment.

Five new schools have joined the PACE initiative at the Tier 1 level this year, bringing the total number to approximately 42 NH schools. [Click here](#) for detailed information about this four-day event.
