

Demonstrated Success

ESP Educator Evaluations & Professional Development

One System. One Workflow. Clear Insight.

Supporting educator growth while empowering school and district leaders with actionable data.

Educator Evaluations in ESP

ESP delivers efficient educator evaluations with customizable workflows and data insights to guide professional learning.

Seamless Observation Management

- Integrate rosters for streamlined tracking
- View complete observation histories in one place
- Capture files and artifacts within the system

Flexible Workflows

- Customize forms without support
- Connect forms to support goal-driven workflows
- Assign sections, share forms, and automate notifications
- Build district-specific processes

Accountability & Insight

- Track progress to ensure timely, accurate evaluations
- Use evaluation trends to guide district planning

Professional Development in ESP

ESP supports professional development through connected workflows and transparent tracking of goals, hours, and resources.

Comprehensive PD Profiles

- Maintain records of goals, requests, approvals, hours, and artifacts
- Keep all PD documentation centralized

Full-Cycle Workflow

- Support the process from suggestion → request → approval → reflection
- Connect observations directly to professional learning
- Customize district approval workflows

Tracking & Resources

- Monitor PD hours and credits
- Track allocated PD funding

Where Evaluation Meets Professional Growth

Data-Driven Decisions

- Turn evaluation trends into targeted PD plans
- Identify high-impact instructional practices

Aligned Growth

- Connect feedback to goals and learning opportunities
- Ensure follow-through from evaluation to action

Customized Integration

- A unified PD and evaluation approach for your district
- Ongoing support across both systems
